Art Unit: 1724

Claims 11-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In light of claim 12, it is unclear whether applicant intended to recite, "calcium or magnesium" in claim 11. In claim 12, it is unclear whether the sequestering agent is a sequestering agent for only calcium, or for both calcium and magnesium, as suggested by claim 11 from which claim 12 depends. The meaning of "cobilder" in claim 13 is unknown. In claim 14 and 15, it is unclear what property criterion the amount provided is intended to be effective. Detergency? Collutorium? The specification fails to provide a standard by which effective and non-effective amounts may be ascertained. Per claims 15 and 16, it is unclear just how many claim 1's there are in this application. It is suggested that "any one of" be deleted from claims 15 and 16.

Claims 1-10 are allowed.
